Weil Typewriter Archives
THE $10.00 TYPE WRITER

SIMPLER, PRACTICAL, AND CHEAPER IN THE MARKET.

We wish respectfully to call your attention to this perfect little machine, which is rapidly gaining favor with all classes of people as a portable writer, and at the same time, a thoroughly reliable, personal and rapid "Type-writer.

It is constructed of the best materials, in the most approved manner; and is a beautiful, compact, light and simple machine. Although especially designed for young people, its practical perfection as a machine, its low price, simplicity and thorough reliability in the work it turns out, make it desirable alike to professional men, clerks, teachers, doctors, etc., etc., who would occasionally had a machine if they had one, but who do not think it advisable to purchase one at a high price. It will print 600 words per minute.

AGENTS, TOY DEALERS, & STATIONERS.
DIRECTIONS

McLoughlin Bros' Type-Writer.

For the convenience of description, it may be divided into three parts: the frame, the two side brackets, the platen, and the type. The frame is made of an iron rail, and is firmly bolted together with the two side brackets. The platen is made of a metal plate, and is held in place by a set of screws. The type is made of a cast iron type head, and is held in place by a set of screws.

PAPER.—The paper to be used for the type should be of good quality, and should be placed in a press before being printed. It is then inserted in the type, and the type is printed on the press.

Type.—The type should be of good quality, and should be printed on the press. The type is then inserted in the type head, and the type is printed on the press.

Press.—The press should be of good quality, and should be placed in a press before being printed. It is then inserted in the type, and the type is printed on the press.

Ink.—The ink should be of good quality, and should be printed on the press. The ink is then inserted in the type, and the type is printed on the press.

McLoughlin Bros,

T. & J. Deane St., N. Y.
DEAR SIR;

THIS IS A SAMPLE OF THE WORK OF THE MCLoughlin Bros' Type Writer. They guarantee that any intelligent person can do equally well after a few minutes' practice. The writer is simple, durable, and cheap, as a Gift to boys it takes the place of the toy printing press.

To men of business beside correspondence, much of their own circular printing will supply all materials for at the lowest prices.

Hoping this will meet your approval, we remain,

Yours truly,

MCLoughlin Bros.,
71 & 73, Duane St., N.Y.
